ENVIROSAFE pH REDUCER #60-68

APPLICATION INSTRUCTIONS:

Always take a pH reading before using this product using litmus strips.

1. Spray or pour and broom or mop pH Reducer onto surface to be neutralized.
2. Allow to sit for a couple of minutes and wash off thoroughly. Take another pH reading to establish the drop in pH.
3. Apply a second application if needed. Rinse thoroughly.

Note: If using Algae Mildew Cleaner on a roof, neutralize the area of soil where the rinse water runs off into with Envirosafe pH Reducer and flush well with clear water.
